

Late News Flashes

Warehousemen May Strike
CALGARY, March 13. (BUP) — Calgary warehousemen of Western Grocers, Limited, have voted to go on strike. The 30 members of Local 987 of the AFL Warehousemen's Union want pay increases of \$30 to \$38 per month. They are presently receiving from \$140 to \$160 monthly.

B.C. Selects Road Route
VICTORIA, B.C., March 13. — (BUP) — The B.C. government has announced the route it wants the Trans-Canada Highway to take on the west coast. Public Works Minister E. C. Carson told the legislature today the highway should go from Banff National Park to Big Bend, through Revelstoke, Kamloops, the Fraser Canyon to Vancouver, over to Nanaimo and down to Victoria.

Holdup Man Sent To Jail
VANCOUVER, March 13. — (CP) — Arnold Byers, 29, of Toronto, today was sentenced to seven years in penitentiary on charges of two holdups and shooting at a police officer on Feb. 7. He was convicted on charges of robbing a suburban branch of the Canadian Bank of Commerce of \$3,800, holding up a taxi driver and shooting at an officer to evade arrest.

Budget Not Ready Yet
OTTAWA, March 13. — (BUP) — Finance Minister D. C. Abbott said today the budget for 1959-60 would be introduced in parliament as early as possible. He said reports that it might be introduced this month were "careful speculation."

Perjury Trial Recessed
SAN FRANCISCO, March 13. — (UP) — The Harry Bridges' perjury-conspiracy trial was recessed for three days today because of the death of the father of the chief defence attorney.

Transit Chief Dead
CALGARY, March 13. — (CP) — George F. Milligan, 61, general foreman of the Calgary Transit System, died today in hospital.

Attlee Dampens Winnie's Idea
LONDON, March 13. — (UP) — Prime Minister Clement Attlee today again rejected Winston Churchill's suggestion for a fresh approach to Josef Stalin on the question of atomic energy.

Truman Supports Hoover
WASHINGTON, March 13. — (UP) — President Truman sent Congress today a bundle of 21 plans and 25 messages on government reorganization which he said would make his Hoover Commission's dream come true.

Transport Chief Not Acting
OTTAWA, March 13. — (BUP) — Transport Minister Lionel Chevrier refused today to intervene in the move by Canadian railroads to seek another boost in freight rates.

Howe Favors Wheat Pact
OTTAWA, March 13. — (BUP) — Trade Minister D. Howe said today Canada favored a move to let Germany and Japan join the International Wheat Agreement. If they were permitted to join the pact, he told the Commons, Canada would be permitted to market 200,000,000 bushels of wheat.

Ship Dispersal Is Advanced
TRIESTE, March 13. — (BUP) — Aeronautics said today it was a meteor which frightened California residents over the week-end.

A score of persons called at the sheriff's office and the local newspaper to report a bright object in the sky Saturday night.

Some said the "flying saucer" dove on their automobiles, others said it was looping the loop and another said it tipped across the horizon.

But Dr. Olin Eggen at University of California observatory on Mount Hamilton said the flying saucer must have been a meteor. It must have been a "fair-sized one, large enough to get close to the earth, before burning out."

The "most vivid description of the 'saucer' came from Mrs. Ram Ragundia of Chualar, Calif. She said she was driving on Highway 99 when it "swooped down" over her car. She thought it was a meteor at first, but she changed her mind when it appeared headed for her.

"I got scared and stopped the car," she said. "The thing looked like two dinner plates placed one on top of the other."

"It came down to what looked like about 2,000 feet. At it came close, it gave off a strong bluish-white light that hurt our eyes like a welder's torch."

Then, she continued, the saucer seemed to "loop the loop" and "whizzed away southward."

"I'm still scared," she said.

## Wrong-Way Clock Man's Masterpiece

Compiled by Charles McParlane  
Telegraph Editor

Watchmaker Thomas Robertson of Charlotte, N.C., grew tired of people bringing in their timepieces for repair with the complaint that "this no-good thing runs backwards." So he sat down and made a watch that really runs backwards.

It keeps good time, but all the hands move counter-clockwise, and the three where the nine usually is in the dial, with the other numerals also reversed.

Robert Rossellini, Italian movie director, today was awarded a Prize of Rome worth 1,000,000 lire (about \$1,650) for his picture "Stromboli," starring Ingrid Bergman. The Prize of Rome is a newly-instituted award of a foundation headed by Mayor Salvatore Rebecchini of Rome.

Twentieth Century-Fox film studio announced today that Susan Hayward has been suspended indefinitely for her refusal to take a part in a forthcoming movie. The studio said the actress has been placed off salary for refusing to play a role opposite Victor Mature in a production tentatively entitled "Sheila." The part has been assigned to Ann Sheridan.

A \$500,000 fire in Rockford, Ill., didn't surprise Rockford residents too much. It was a day earlier than the all-March 12 seems to be fire day in Rockford.

March 12, 1948, there was a \$100,000 fire in a department store.

March 12, 1947, there was a \$1,000,000 fire in a piano factory.

March 12, 1936, there was a \$100,000 fire in a furniture plant.

Yesterday's blaze was at the Century Tool and Manufacturing Company. Company officials estimated the damage.

Fire Chief Wayne Swanson is keeping his fingers crossed until today is over.

Aldo Villa, Turin, Italy, wanted to fly like a bird. He built a contraption with wings that flapped by bicycle pedals.

It worked fine for 150 feet. Villa tried it again. This time it didn't.

Villa is in the hospital with a broken leg.

Lone skunk stood his ground against 801 students in Northwood school Saturday in West Palm Beach.

His presence was discovered when the cafeteria opened. Teachers and janitors tried to drive him out. He drove them out instead, by a method best known to skunks.

An exterminating company was called. The skunk, now underneath the school, drove them out.

Teachers held a conference. Several kids were sick. The cafeteria was a "no pupils' land." The school itself was uninhabitable.

The students went home. The skunk stayed on.

A wheel torn loose from a "hot rod" racing car spun into a crowd of 3,500 spectators in Wall Township, New Jersey, yesterday, killing one person and injuring another. The car was one of a field of super-charged mopeds competing at a Monmouth County airport raceway.

Col. Domingo Mercante was re-elected yesterday, with strong presidential backing, to another two-year term as governor of Buenos Aires province.

Mercante's victory assured him official support for the vice-presidency of the same ticket with President Juan D. Peron in the 1952 general elections.

### 80 Persons Die In Worst Crash

(Continued from Page 1)

made yesterday's ill-fated flight and a leading supporter of the Tudor plane in 1946 he crashed with the executive of British South American Airways when the big ship was taken off Britain's publicly-owned airlines after they were involved in accidents.

Bennett, whose charter company made more than 200 flights in the Berlin air lift, was credited with the plane which crashed yesterday when the air lift resumed.

Having flown more than 1,400 without an accident, than any other single plane, British or American.

In February, 1947, three defects were found in the Tudor plane.

In August, a trial plane crashed, killing four persons. That September the British Overseas Airways Corporation rejected it for passenger service.

TUDOR VINDICTED

An inquiry in 1949 vindicated the Tudor. Less than three weeks later a Tudor IV, the Star Tiger, disappeared off Bermuda with 31 people aboard. A year later another Tudor IV, the Star Ariel, disappeared on a flight to Jamaica with 28 persons aboard.

Until yesterday, commercial aviation's largest death toll in a single accident had been the 55 killed Nov. 2, 1949, when an eastern airlines plane collided with a military fighter plane at Washington, D.C., and plunged into the Potomac River.

15 Men Escape Flaming Bomber

TAMPA, Fla. March 13.—(AP)—All 15 men on a B-29 training mission escaped death Sunday when their aircraft crashed and burst into a lethal landing at MacDill air force base.

The plane was brought down safely through the overcast by ground-control approach.

The nose wheel collapsed at the instant of landing, all four engines were sheared away and the big bomber burst into flames. Ground crew men rescued the flyers and doused the fire within seconds.

Capt. Charles L. Erickson, the crew member severely injured, fractured a vertebra.

C-47 PILOT KILLED

At Hope, Ark., a U.S. Air Force C-47 transport crashed in a rain storm and burst, Saturday, killing the pilot. The three other

### Pilot In Canada During Last War

MONTREAL, March 13.—(CP)—Friends recalled today that Capt. Denis J. Parsons, one of 80 persons killed in yesterday's crash of a Tudor airliner at Cardiff, Wales, served in Canada during the war.

Capt. Parsons, 35-year-old RAF veteran and pilot of the ill-fated plane, spent nearly three years in Canada. An instructor at North Battleford, Sask., he married a Canadian girl.

ROYALSTON, Mass.—(UP)—Charles Richardson suffered 45 bone fractures in the first 35 days of his life. Doctors said a phlegoric deficiency was to blame for the three-break-year average.

## Canuck Jet Fighter Circles At 575 Inside Ottawa Field

OTTAWA, March 13.—(CP)—Before a distinguished audience, Canada gave tonight a first formal demonstration Saturday of the long-range jet fighter she designed as the answer to her geography and climate.

The demonstration led veteran RCAF pilots talking like elated schoolboys and foreign observers

blasted the jet's speed. Combined with a later display of Canada's first jet transport, it left little doubt that this country had made two major post-war strides.

Billed as the most powerful fighter in the world, the 30-foot long, sleek black beauty is known now as the CP-100.

On wind-swept Rockcliffe airport, it dwarfed an RCAF Vampire, the jet fighter now in use.

In the air, sweeping down across the dignitaries huddled beneath blankets and coats, it rolled, turned and handled with an ability that wartime pilots were talking about hours later.

FLYING BY ALBERTA

Bill Waterton, a test pilot with a bushy moustache, from Camrose, Alta., took the CP-100 up for the first time.

He put it up to 37,500 feet in an hour without ever going outside the circumference of the air force field, a big feat in itself.

His ultimate speed is a secret.

The plane was operating at only 80 per cent of its power.

At one point Waterton brought it across the biting cold of the field at 115 mph. close to stalling speed. He then pointed the nose up and poured the power on. The plane went soaring upward like a brute unleashed.

At another time he put the nose straight up to demonstrate an ability to climb that is claimed to be "outstanding."

DIDN'T USE EVERYTHING

The fighter wasn't put through a full bag of tricks. It wasn't loaded with a full load of fuel or armament.

It still has to be given the vital high altitude and all-out speed tests.

## Bevin Leaves London Hospital

LONDON, March 13.—(Reuters)—Foreign Secretary Ernest Bevin today left hospital where he has been for rest and treatment during the week-end. He has been having injections for heart trouble. Bevin planned to go to the House of Commons this evening. He is due back at work in the foreign office tomorrow.

## Liberals To Support Gov't

LONDON, March 13.—(AP)—Government whips in the house of commons breathed a little easier tonight as unofficial reports circulated that nine Liberal members would refuse to vote, or vote with Labor, on a new Conservative effort to unseat Prime Minister Attlee's government.

In last Thursday's first confidence test, the Liberals voted with the Conservatives, but the government won by 14 votes.

Tonight's test, on the tough issue of housing, will be followed by another tomorrow on government spending. If the government loses either of them, it is expected to resign, forcing a new election.

Conservative Walter Elliot, now in adoption of the opposition housing motion tonight, told Health Minister Aneurin Bevan:

"I take it the minister will offer to resign tomorrow during the course of debate. Otherwise I can promise him he will hear of this subject more often."

## Former Mayor Pleads Innocent At Murder Trial

SYDNEY, N.S., March 13.—(CP)—Dan Jack MacLean pleaded innocent today to the murder of Joseph MacKinnon, 45-year-old Sydney registrar of voters.

The 63-year-old former mayor of this Cape Breton station town

boomed out his plea in a loud voice as he went on trial before Chief Justice J. L. Hiley and a Nova Scotia supreme court jury.

MacLean, re-elected for his fourth term as mayor just 12 days before the Dec. 18 slaying, appeared thinner than he did at his preliminary hearing in January.

The Crown claims MacLean killed MacKinnon, a cripple, by deliberately running him down with a car in an alley.

## Official Termed Pro Communist

U.S. Senator Says Federal Payrolls Loaded With Reds

By John L. Steele

Exclusive to the Bulletin

WASHINGTON, March 13.—(BTP)—Sen. Joseph R. McCarthy (R-Wis.), today named state department official Hildore Hanson as a man "with a mission to Communize the world." He also called former Roosevelt adviser Owen J. Lattimore a "pro-Communist."

Taking off a list of names to back up his charges that government payrolls are loaded with Reds and Red sympathizers, McCarthy also cited Mrs. Esther Calkins Brunauer, a minor state department official, and her husband (Stephens), a navy scientist.

McCarthy said the state foreign relations subcommittee that Lattimore still holds a job as a part-time state department consultant on far eastern problems.

ROOSEVELT ADVISOR

He said Lattimore, who was the late President Roosevelt's advisor, in China, is a bad security risk and may already have done this nation incalculable and irreparable harm.

McCarthy said the 37-year-old Hanson, who recently was assigned to a top planning job as President Truman's point man for program for development of backward areas of the world, had demonstrated "pro-Communist" tendencies for many years.

He said Hanson's writings identified him as a defender of the Chinese Communist cause but the state department said it is satisfied that Hanson is not a security risk.

Mrs. Brunauer, 40-year-old, was assistant director of policy liaison on the state department's UNESCO relations staff, was cited by McCarthy for alleged Communist front activity. The state department also promptly said that she had been investigated and found loyal.

McCarthy said Mrs. Brunauer, as executive secretary of the American Association of University Women, was instrumental in committing that organization to the support of various Communist front enterprises.

Her Hungarian-born husband, McCarthy said, had admitted to associates that he was a Communist. But the senator said Brunauer holds a "highly confidential" navy job involving "some of the top-most secrets of the government."

CONSTANT CHECK

McCarthy said Brunauer has been under "constant investigation" by government agencies for 10 years and that he was a close friend and collaborator of Noel Field, who disappeared recently in eastern Europe.

INTERESTING NEWS of bygone days—particularly with regard to prices—was found in old trading post log pursued by Mrs. O. J. Walker, 11103 Saskatchewan Drive.

## Edmonton-Calgary Fare Much Cheaper Today

By Barney McKinley  
Bulletin Staff Writer

An ancient log book from a HBC fur trading post on the North Saskatchewan has come to light in Edmonton.

The faded journal covers the period from August 8, 1881, to October 2, 1884, and is inscribed in the careful penmanship of a bygone day.

**OLD BUILDING**  
Actually the journal was discovered last year by Mr. Purin, now of Kelowna, B.C., when he was tearing down an old Edmonton building.

It was found beneath the eaves of the building, undisturbed since the day it was laid away by some idle trader.

The book recently came into the possession of provincial archives committee member, Mrs. O. J. Walker, historian and author of "Fortress North", through Purin's daughter-in-law, Mrs. Oscar Purin, Edmonton.

The yellowing log book is merely the record of the ordinary day-to-day business of a nineteenth-century fur trader, but its cut and dried notations record events and persons that made history in Edmonton.

**OLD MILL.**  
The entries, most of them signed "Leslie Wood," date the existence of the old HBC mill and record the fact that board for the workers, at the old Ross Hotel, was costing the company \$1 per day.

Noted are Fort Pitt, Jasper House, Lac St. Ann, Lac La Poudre, Victoria, Prince Albert, and towards the end of the journal—"Calgary."

Incidentally, it is recorded, that stagecoach fare from Calgary to Edmonton in 1884 was \$25.

The business transactions of such historical figures as Frank Oliver, John Morley and Jerry Oler, Louis Riel's guide, are also set down in the log. You can learn, for example, that Frank Oliver was paid, on August 10, 1883, the sum of \$2.50 for 30 boxes of gun caps.

**CHRISTMAS.**  
The HBC gift list was in operation by the end of 1884, it records, and on the day before Christmas of that year the trader signed his name to purchase of wheat at \$3.50 a bushel and barley at 75 cents.

And just to show there were few more merriments in life when one man had to pile stones for 10 days to earn \$7.26, the fur trader notes selling four fiddle strings on July 23, 1883.

## Major Shragge Moves To Ottawa

Major G. E. Shragge, Royal Canadian Dental Corps, left Edmonton Thursday for headquarters, Ottawa, where he has been posted to the office of the director of dental services. Major Shragge has been senior dentist for army and air force in Edmonton for three years.

In his new posting he will deal with the administrative function of the Dental Corps.

Major J. A. MacGowan, formerly of army headquarters at Ottawa, has replaced Major Shragge.

Mrs. Shragge, the former Nell English of Edmonton, will leave for Ottawa in a few weeks.

## CONSTIPATION A TERRIFIC MENACE

Are you tormented by constipation or indigestion? If so, you suffer needlessly. **FRUIT-LAXATIVE** will make you comfortable and happy. It is a natural, non-toxic, and non-habit-forming laxative. It is the only one that does not irritate the bowels, and it is the only one that does not cause cramps, heartburn, headache, or dizziness.

Take Fruit-Laxative according to directions. It will be the first of many steps to your health. It is a natural, non-toxic, and non-habit-forming laxative. It is the only one that does not irritate the bowels, and it is the only one that does not cause cramps, heartburn, headache, or dizziness.

Get the genuine **FRUIT-LAXATIVE** at all drug stores.

## Mayor Suggests Taxes Be Shared

### Road Construction Aid Would Be Major Result

Provincial authorities should release 25 per cent of total vehicle licence and gas tax revenues to cities and municipalities on a per capita basis for road and local construction, Mayor Sid Parsons suggested Monday.

This would mean that Edmonton, on a basis of one-fourth of the province's population, would get between \$100,000 and \$125,000, enough to do one-eighth the amount of paving the city can complete in the next five years, he said.

"I don't think present taxes should be increased to provide such assistance, but as mayor I would be thankful to get a contribution of that size. It would be some extra relief on the road-building charges against property," he said.

Mayor Sid Parsons said Monday he had written Premier E. C. Manning, asking for a conference on health grants.

Asked if the question of the province's proposed \$1 a day hospital scheme would be discussed, he said it probably will.

But he refused to express an opinion on whether the city should accept the plan.

\*\*\*  
Total northern donations to the Canadian Red Cross Society campaign up to Saturday amounted to \$14,176.64, of which \$12,436.55 was collected in Edmonton.

Provincial campaign objective is \$400,000. Donations may be paid to the Red Cross, CFB Building, Edmonton.

\*\*\*  
Hon. Major L. S. Ritz, senior Roman Catholic Chaplain for Western Command left Edmonton for Ottawa to attend the annual conference of Roman Catholic Chaplains of the Canadian Army.

\*\*\*  
Alfred Davis, office manager for Lever Bros. Ltd. at Vancouver, is an Edmonton business visitor. Formerly with the company in Edmonton, Mr. Davis went to Victoria about eight years ago. He was recently placed in charge of the Vancouver office.

\*\*\*  
The Alberta Humane Society will meet in the Corona Hotel on Tuesday at 8 p.m.

\*\*\*  
Mill Creek Home and School Association will present a program of films Tuesday at 8 p.m. in the school.

\*\*\*  
Arranged by program committee, the film depicts training of RCMP recruits and dogs.

\*\*\*  
Committee to choose a publicity theme for Edmonton will meet in city council chambers, 8 p.m. Wednesday. Mayor Sid Parsons recommended organization representatives.

\*\*\*  
Rault alleges he received permanent injuries and partial loss of the use of his leg when a truck allegedly driven by Charles A. Patey crashed into the rear of his parked car on the highway near Bonnyville last Sept. 5.

\*\*\*  
Damage suit for more than \$17,000 today was entered in court by suitors for George M. Rault, Bonnyville grain buyer.

\*\*\*  
In the statement of claim, Rault alleges he received permanent injuries and partial loss of the use of his leg when a truck allegedly driven by Charles A. Patey crashed into the rear of his parked car on the highway near Bonnyville last Sept. 5.

## MATTER FOR OTTAWA

Edmonton has no authority to control spring knives or stilettos, Mayor Sid Parsons said Monday, following a check with City Solicitor Tom Garande.

"I thought we might apply some control to these weapons, with which other cities are having so much trouble, but apparently it is a Criminal Code matter, and I don't suppose the federal government would give us any authority," he remarked.

He had thought of controlling sale of such potential weapons through local law, he said.

"No doubt the spring influx of visitors interested in our industrial and other expansion will bring with them some undesirable, and I am afraid some of them will bring such weapons with them," he remarked.

## NEW INSURANCE OFFICE

Well-known Edmontonians have opened an insurance office for all classes of insurance.

CARGO INSURANCE for trucks, AUTOMOBILE CONTRACT and SURETY BONDS, LIABILITY, FIRE and ADDITIONAL PERILS, MONEY and SECURITIES (Broad Form), FORGERY, PLATE GLASS, PERSONAL PROPERTY, FLOATER, OIL, WELL EQUIPMENT.

## ROAD MOVE COVERED

No action has been taken by Edmonton automobile dealers to escape the increase in freight charges, having new cars and trucks shipped to Edmonton by rail transport.

W. E. Wolfe, president of the Edmonton Automobile Dealers' Association, said that a few of the dealers have investigated the possibility of shipping cars and trucks shipped to Edmonton by rail transport.

## City Finance Records Set

All-time highs in revenue and expenditure were chalked up by Edmonton's five utilities during 1940, although the overall surplus was lower than during wartime years.

Revenue hit \$10,500,131, or \$1,483,732 more than the 1939 total of \$9,016,403.

Expenditures, including taxes and operating expenses, were \$9,636,409, or \$1,472,621 more than 1939's \$8,163,788.

Overall surplus was \$1,863,723, compared with \$228,615 in 1939, when the utilities were credited with \$741,196, compared with \$741,196 in 1939.

Revenue hit \$10,500,131, or \$1,483,732 more than the 1939 total of \$9,016,403.

## AMBULANCE TRIP MADE BY CITY BUS

Fast trip by bus direct to city police station from "Town of Forest Heights School" and from there to Royal Alexandra Hospital in police car was made by William Smith, 1018-68 street, Sunday.

Smith was found lying at the side of the road by Edmonton Transit System bus operator Robert McCann and helped into the bus. He told the bus driver he had slipped on the ice and "hurt his ankle."

On his way into town McCann picked up a policeman on his best to help with the injured man. The policeman promptly "commandeered" the bus and set the course for the police station.

Hospital authorities diagnosed Smith's "hurt ankle" as a broken left leg.

## Just One Drink Is As Bad As 20

(Following is another in a series of articles written for The Bulletin by a member of Alcoholics Anonymous.)

"We're one drink from being drunkards." That's a favorite saying among the thousands of men and women who are members of Alcoholics Anonymous.

It seems obvious that if a person doesn't take the first drink, he'll never get drunk.

But there's an obsession—and A.A.'s will say that word is not too strong—among alcoholics that some day, some where, somehow they'll be able to drink in a controlled manner.

There's the story of Walter, a big city executive.

"When I went on home my wife said, almost in a whisper: 'Your mother died the day you disappeared. Everybody in the family hunted you. Then we gave up. She was buried yesterday.'"

"I didn't take a drink for three months."

"Then I took to drinking in isolated places, where I wouldn't meet old friends. But I found I couldn't run away from myself."

"An old friend told me Alcoholics Anonymous was the answer. He cautioned me that it wasn't the twentieth drink that got you into trouble, but the first."

"When I finally accepted the idea was ready for the full course."

"That was nine years ago. Today I have the best job I have ever had."

"One day I thought I struck it."

ETN was the only utility to wind up in the red, with a \$8,622 deficit. Waterloo barely broke even with a \$1,500 surplus.

Comparative total revenues for 1940 and 1941 with later in brackets: ETN—\$1,292,676; Waterloo—\$1,292,676; K.C.—\$1,292,676; P.E.—\$1,292,676; S.E.—\$1,292,676.

## INTRUDERS BLAMED AS HOME DAMAGED

Mischief done by blamers for extensive damage to house at 11807-68 street owned by George Camillo, 10749-68 street.

Camille told police that someone had apparently shot off the furnace in the house "sometime between Wednesday and Saturday."

With result pipes froze and burst and basement became flooded. Stealing was stolen.

The early patrol was made in 1940 by Camille, Vitell, of P.O. Italy, and got its name from that ancient city in Florentine province.

# Making Streets Ugly

If the city council wants to destroy the dignity and beauty of Edmonton's downtown streets it will approve the proposal to add advertising matter on the parking meters.

Two such applications have already been received to turn the 1,107 meters into silent salesmen.

But there seems to be a snag. One of the applicants claims that his company has exclusive patent rights on such advertising devices and no other agents should be considered.

This is all the more reason the city should fight any of a project that threatens legal complications.

But the scheme itself is undesirable. Edmonton people have no desire to see the confusion and distraction of large American cities where advertising appeals

for this and that are plastered over every available inch of space.

But the serious point is not the only one to be considered.

Parking meters and their operation should be as simple as possible. Many visitors to the city are not acquainted with their use.

And if advertisers are permitted to place some advertising on the parking meters, the operation of them will become even more confusing to strangers.

Tourists should be able to park their cars, at least, without getting tangled up in sales appeals.

This stunt promises to give Edmonton new revenue of about \$5,000 a year.

But the serious point is not the only one to be considered.

Edmonton people have no desire to see the confusion and distraction of large American cities where advertising appeals

### Love Is No Sure Cure For Ulcers

This being a medical-minded week, I find myself slightly fascinated by a nostrum against indigestion and stomach ailments, an ailment which afflicts the go-getter even as it grubs the rich indulger.

A doctor in Pittsburgh says that love is the answer to the ulcer, when all the time I thought the solution was to be found in bland food, fewer cigarettes and getting fired from the newspaper business.

Or the advertising business. Or any other business, which creates stress in nervous energy so potent.

The married guy who by his name, except I am weary of plugging publicity seekers in the healing profession—allows that emotional hunger prompts the stomach to crave food and therefore the brand of love he unconsciously desires. Belt the boy over the head with Cupid, and presto, he's off the ulcer and cracker diet and is reading up on the best approach to a lobster thermidor.

It is obvious that this which-doctor is a stranger to love, in its true sense. As a veterinarian, as any romance-bitten veteran can assure you.

They can't even sponsor a settlement to the nervous system and digestive processes than any known disease, including the brain, a mildly suffered acute cases of emotional warfare and have found them, to a man, to be unuseful in the laboratory, and the subconscious, and a bore to any incontinent bystander who happens to drift into the den of the cursed Venus. Lovers

Love is a tough proposition for any age, as this doctor might learn by the time he's prodding away back into the autopsies of the patient and respecting the brand of love he unconsciously desires. Belt the boy over the head with Cupid, and presto, he's off the ulcer and cracker diet and is reading up on the best approach to a lobster thermidor.

## Moon

Calif

Nope, I'm wrong, come to think of it. The call moon-calf, with good mouth and black eyes, possibly suffers more than the old gaffer. Or it seems so at the time. I recall my adolescent plan to become more nervous, and my school grades less, every time I fell before the moon.

They can't even sponsor a settlement to the nervous system and digestive processes than any known disease, including the brain, a mildly suffered acute cases of emotional warfare and have found them, to a man, to be unuseful in the laboratory, and the subconscious, and a bore to any incontinent bystander who happens to drift into the den of the cursed Venus. Lovers

Love is a tough proposition for any age, as this doctor might learn by the time he's prodding away back into the autopsies of the patient and respecting the brand of love he unconsciously desires. Belt the boy over the head with Cupid, and presto, he's off the ulcer and cracker diet and is reading up on the best approach to a lobster thermidor.

It is obvious that this which-doctor is a stranger to love, in its true sense. As a veterinarian, as any romance-bitten veteran can assure you.

## All the Fuss About a White Queen

It is difficult for Canadians to understand the frantic funning of the British government about the determination of "King" Seretse Khama of Bechuanaland to seat his white wife alongside himself on the black throne.

At first the government tried to dissuade Seretse from marrying the London girl, then they tried to keep him from returning to Bechuanaland. Then they endeavored to stir up the natives against him.

And now, finally, they have banished him from his kingdom for five years unless he will divorce his white wife and rule alone.

A Canadian newspaper has no facilities for delving into the intricacies of British office policy. And there may be good and substantial reasons why it is impolitic to permit a white woman to be consort of a black king ruling over a black nation.

But on the superficial face of it, the British government has not made out a good case for its interference.

The white queen has well received by the natives, particularly the women, and common sense would indicate that such a situation should ameliorate rather than complicate white-black relations.

## Another Hysterical Piece of Folly

The refusal of 900 professors of the University of California to take a special anti-Communist oath in order to hold their jobs is about as sane as the exhibition of courage and common sense.

The professors are ready to assert their stand against Communism. But they won't be coerced into any farcical oath as that would be involved in taking an oath.

And they are quite right.

In the first place, such an oath would provide no safeguard whatsoever against the presence of Communists on the staff.

Secondly, the professors are not Communist teaching has no regard for truth.

In all likelihood, the Communists would refuse to make such a solemn affirmation.

In the second place, this outrageous proposal to make a group of presumably honest men and women avow their innocence of a crime with which they have never been charged is a serious breach of those conceptions of personal freedom

upon which the whole continent was originally established.

In happier days is used to be assumed that they were innocent until they were proved guilty.

Today, under the wave of spy hysteria that seems to have seized the United States, the process seems to be reversed.

Today the onus is not upon the state to prove that a man is a Communist but upon the individual himself to prove that he is not a Communist.

This new principle is unwholesome to the extent in the peremptory order of the state to prove that a man is a Communist.

It is not enough to say that this procedure is an hysterical piece of folly.

It is a grave encroachment upon democratic liberty. And what will be the sense of achieving a form of security against Communism if in the process of doing so, North America destroys its own traditions of individual liberty?

By Frederick C. Othman

## Those Slimming Diets Take Economic Perils

What this country needs is more non-angular women who eat their food potatoes, milk, eggs, and butter, and no quailms. This is official and also, in any opinion, the best diet for the female sex, a first-class diet.

Secretary of Agriculture, Charles Brannan and I agree as to the merits of the well-rounded and -edged diet. I'd like to see more OTHMAN

Lillian Russell for strictly actress's take more potatoes, milk, eggs, and butter. I'd like to see more OTHMAN

It claims that if the beautiful sex was worrying all the time about the size of its hips he wouldn't have to be doing anything to take a lions of bushes of potatoes blue with eldium salt and burning heat. Secretary Brannan put it this bluntly before the House Banking and Currency Committee.

Mrs. Brannan—beauty in the slim modern manner—was there when he said that. I don't know if he is a Cabinet member, but he is stirring up trouble at home. So the merely that the consumption of potatoes has gone down year by year. At last, he said, the feminine diet.

Lillian Russell

I have seen pictures of Miss Russell; my father saw her once in person and he never forgot her. If eating more potatoes will clear the Secretary Brannan's serious problem and also make the ladies look round in all the pressures, then what are we waiting for?

At I get it, Brannan really fears the female who resembles

Anna Held. She was a contemporary of Miss Russell and a lady of the same superior class. She also made a practice of bathing in milk. The Secretary of Agriculture, Charles Brannan and I agree as to the merits of the well-rounded and -edged diet. I'd like to see more OTHMAN

## Letters to the Editor

### Passenger's Assistance

Editor, Bulletin.—I have read in your "Letters to the Editor" column many letters casting aspersions on the ETS motorbuses. I would, however, like to express my thanks, publicly, to a number of ETS patrons who have assisted me one night about a week ago.

I had trouble with a lady at 44 street and 13th avenue, who was determined to make trouble for me, because, for her own safety, I refused to let her board my vehicle at a place where there was an open ditch.

I received assistance from some of my other passengers who, by giving me their names and addresses as witnesses, made my somewhat late passenger change her mind, realizing possibly that what I did was for her own good.

I, therefore, wish to say "thank you" to those persons who were kind enough to help me. I wish that there were more people like these.

G. C. HUGHES.

1320-13th Street.

### Laws Of God

Editor, Bulletin.—In your letters to the Editor, I have followed the frank questions and not your flimsy answers of Observers X and Y. After reading the letter from Y, I am tempted to submit the following:

"I take it that religion is as common sense and that above all else in the law. How else can this immense universe carry on as it does?"

Denying the existence of this God-law does not nullify that law. It still works.

Denying the existence of this God-law does not nullify that law. It still works.

Denying the existence of this God-law does not nullify that law. It still works.

Denying the existence of this God-law does not nullify that law. It still works.

Denying the existence of this God-law does not nullify that law. It still works.

Denying the existence of this God-law does not nullify that law. It still works.

### Appreciated Visitors

Editor, Bulletin.—Having been invited to the Col. Mackenzie for quite a considerable length of time, I wish to take this opportunity and pleasure in thanking the visiting committee of the Army, Navy and Air Force Veterans, as well as Army, Navy and Air Force Women's Auxiliary for the splendid work and comfort which they brought me during my long confinement.

My thanks and appreciation are very small in comparison to the task in which you magnificently.

GEORGE DEMPSTER

1213-13th Street.

### Harsh Words

Editor, Bulletin.—Edmonton, a big city, in fact the oil capital of Canada, can't beat a little bit town like Prince Albert.

They can't even sponsor a settlement to the nervous system and digestive processes than any known disease, including the brain, a mildly suffered acute cases of emotional warfare and have found them, to a man, to be unuseful in the laboratory, and the subconscious, and a bore to any incontinent bystander who happens to drift into the den of the cursed Venus. Lovers

Love is a tough proposition for any age, as this doctor might learn by the time he's prodding away back into the autopsies of the patient and respecting the brand of love he unconsciously desires. Belt the boy over the head with Cupid, and presto, he's off the ulcer and cracker diet and is reading up on the best approach to a lobster thermidor.

It is obvious that this which-doctor is a stranger to love, in its true sense. As a veterinarian, as any romance-bitten veteran can assure you.

## Samis, Pickles Join Forces

Monday mumbings . . . and whatever became of hockey's contentious C-Form.

Don't let your sign a C-Form, father. The A and the B are much less bother.

Personal report on entry of Ken Samis and Cal Pickles into the Big Four Baseball league picture as Dodge team backstoppers: This represents a fine stroke of business on the part of all concerned, with the men most closely allied with the other three teams—John Ducey, Harold Cundall and Sid Sam Timmin—seemingly having been up a pair of excellent running mates. Fact that Samis knows the game inside out, with special emphasis on the playing end of it to this point, makes him that much more valuable an acquisition. The new angle looks like the Cubs aren't going into this thing blind by any means. For the past couple of weeks they have made a searching inquiry into the ways and wherefores of what makes a club click in the Big Four. Several conferences were held with Frank Wolfe, under whose sponsorship Cubs won the league championship last season. As well as one, Ducey has taken them behind the scenes so that they now they should be pretty definite in their own minds that they can make a go of it. Definitely the welcome mat should be rolled out for Ken Samis.

Beasler Jerry Meeker got into a jam with Regina promoter 'Porky' Jacobs recently, for failing to show up for an exhibition, as advertised . . . Whatever became of the Sudbury Wolves?

## Kilburn Does It

Now it's official: Colin Kilburn has taken over from Dunc Grant, and he's a Red Hunter, Bob Carey, Mac Bentley and a host of other fine pucksters, as chief custodian of the Gordon Efficiency medal, emblematic of WCHL, most valuable player rating. Gordon Efficiency medal selectors got right down to it, they couldn't laugh off those 51 goals (many of them clutch efforts), and so the sophomore winger stood out what must have been stern challenges from the likes of the Red Hunter, Bob Carey, Mac Bentley, Reginald Rega. Certainly no one in these parts will begrudge Kilburn the honor. He has made phenomenal progress in the art of chasing pucks instead of chasing game, since throwing away his goalkeeper's gear, four or five seasons back.

And while on the subject now's as good a time as any to raise a cheer for coach E. Gordon, who has taken over from Gordon Watt, and Harvey (Pug) Young, other Flyers who, like Kilburn, earned all-star rating . . . Add Dertell, McDougall and sick-kicking John (Silver) Saskatchewan's continuing desire, to the Flyer contingent and you'd come up with quite a hockey team. There's only one catch to this all-star business, as they go about it in the WCHL, it's not an empty business, considering there's no money award to go with it. Why not make it worth at least 100 rocks to each all-star, president D. P. McDonald?

## Laurel Harney Back Home

Add hockey-playoffs are for the swift-dept.: Laurel Harney, whose Vernon Canadians (Dave McKay, among them) were out-funneled by Kelowna and the British Columbia Mainline Senior 'B' hockey playoffs, arrived back in the city yesterday . . . Whatever because of Lou (Mad Russian) Smith's continuing desire, to the Flyer contingent and you'd come up with quite a hockey team. There's only one catch to this all-star business, as they go about it in the WCHL, it's not an empty business, considering there's no money award to go with it. Why not make it worth at least 100 rocks to each all-star, president D. P. McDonald?

He gets around—does Eddie (Bolo) Halligan, the crowd-pleasing Negro, well and favorably known to Cow Lake night fans. He was away on a tour on a card at Salt Lake City . . . While in the city yesterday to attend that Big Four Baseball league confab, Calgary's 340-Sammin confab with the Edwards and (Silver) Ciovischi, of last year's champion Cuck machine . . . So?

Who do you think turned up as referee for those two games Variety Golden Bears played in Denver, Friday and Saturday? None other than the old Scott, once with 'Duke Keats' Eskimos of the old Northwestern pucker wheel.

## 'FLYER NIGHT' AIDS RED CROSS SOCIETY

'Flyer Night' is scheduled for the Gardens Wednesday evening at 8:30. The fourth side playing South Side in exhibition hockey game.

Half the proceeds from this encounter will be donated to the Red Cross Society. A line-up were announced last night and appear as follows:

North Side—Ray Frederick, Gordon Watt, Bill Pettigrew, Mac Carey, Doug Anderson, Bing McKee, Andy Glovechov, Steve Latoski, Don Culley, Bud Evans, Flyer coach Frank Currie and Jim Fleming.

South Side—Ralph Hanach, Doug Lane, Pug Young, Eddie Cutler, Elmer Kreller, Alec Pringle, Freddie Smitten, Bernie Bathgate, Colin Kilburn, Bill Dockery, Nick Mandryk and Kenny Cox.

## Inter-City Ski Honors to Calgary

BANFF, March 13.—(CP)—A six-man Calgary squad today won the J. B. Brown trophy for the 14th annual Calgary-Edmonton all-star race at Mt. Norquay yesterday, defeating Edmonton's top skiers, but Edmonton women beat out four Calgary skiers in the women's event.

Facing the Calgary team was Joe Irwin, 17-year-old third place holder in the 1950 Canadian Junior Ski Championships, who turned the fastest time of the day for the two runs through a 400-foot slalom course. Irwin cleared through one course 4:24 seconds for the fastest single time of the day. His two-run time was 1:38:2.

Bob and Dave Press of Calgary slipped through slalom in 1:22 and 1:23:2 respectively, to boost Calgary's lead on the Edmonton skiers.

In the team event, the times of the four fastest men were tallied. Irwin and his partner, Doug Lane, won in 6:16 minutes 12:5 seconds. Edmonton's top four skiers were clocked at 6:04.

Speediest Edmontonian was Bob Hyde who was clocked at 1:22:2. Bill Montgomery, Jim McKay and John Ducey finished 1:24:2, 1:24:4 and 1:24:6 respectively.

## Flyer Aces Catch Places WCHL All-Stars

FRANK CURRIE COLIN KILBURN HARVEY (PUG) YOUNG GORDON WATT

Coach 1st Team MVP — Left Wing Defence

Calgary, March 13.—(CP)—Edmonton Flyers played four men, counting coach Frank Currie, on the Western Canada Hockey league's 1949-50 all-star team. As well the first-place club's ace forward, Colin Kilburn, won the most valuable player award for the season, league president D. P. McDonald of Calgary announced last night.

Calgary Stampede, Saskatoon Quakers and Regina Capitals each placed one man on the dream team, picked by sports writers, radio commentators and league players. Veteran Russ Dertell of Stampede, whose seven shutouts set a league record, won the Dave Dryden memorial trophy after being voted the overall best goalkeeper. Calgary defenceman Hugh Coffin, last season with Moose Jaw Junior Canucks, was named the best rookie of the year and was awarded the CKAU cup.

Kilburn, the league scoring leader who set a new record for goals scored and came within one point of tying the record for total points in a season, received the Gordon Efficiency medal and the McDougall trophy for being voted the best player in the league. He was also named the best player in the league.

In the senior women's was Doreen McLeod all the way as she stepped into the first line in all rights to grab the point shots. Right behind him McLeod, just lacking the finishing touch, was Peggy Craven.

One of the most promising young speedsters in Edmonton, young Currie, took all events in the junior girls class by a good margin. Miss Currie was runner-up in the Dominion last year.

Other point winners were: senior men class B, Carl Cunningham; intermediate men, Art LaFiche; junior boys, Bob Irwin; juvenile boys, Doug Lane; 12 and under boys, Roy Fleming; bantam boys, Marvin McDonald; pee wee boys, Roddy McDougall; intermediate women, Lydia Burgette; juvenile girls, Dorothy Shaul; bantam girls, Sylvia Robertson; 12 and under girls, Doreen McLeod; pee wee girls, Kay Keen.

Miss Currie, 13, was the runner-up in the 12 and under girls class.

## JOLTIN' JOE PASSES UP EXHIBITION

ST. PETERSBURG, Fla., March 13.—(AP)—Joe DiMaggio sat out New York Yankees exhibition baseball game with St. Louis Cardinals yesterday because of a blistered heel, but Yankee manager Casey Stengel said it was nothing.

The blister is on the right heel, which gave the slugging outfielder so much trouble last night, Stengel described it as just an ordinary blister of the kind often caused by baseball shoes early in the season.

DiMaggio was scheduled to play in the first game of the season, but he was held out of the game.

## Canadians 3rd in NHL

MONTREAL, March 13.—(CP)—A battle for possession of third place in the standings was the centre of interest in a six-game week-end National Hockey league card today as Montreal Canadiens edged the New York Rangers.

Canadians climbed into a third place deadlock with New York Rangers Saturday night by defeating Boston Bruins 5-4, while the Bruins took a 4-0 victory over the second-place Maple Leafs at Toronto. Then yesterday the Canadiens and Rangers looked up at New York, with the Montreal crew taking a 5-1 victory and undisputed possession of third place.

Leafs, meanwhile, and fifth-place Boston played to a 2-2 draw at Boston last night. The other two games of the week-end and the league-leading Detroit Red Wings came to a 3-2 victory over the cellar-dwelling Chicago Black Hawks. The Wings beat the Hawks 5-1 at Detroit Saturday and 4-2 at Chicago yesterday.

Rookie Montreal goalie Gerry McNeil, dubbed for the injured Bill Durnan, played nearly as well last Saturday night. He handled only 17 shots, but about half were slizzers and hard to handle.

Offensive star of the game was Bruins' Maurice Richard, who blasted in his 35th and 36th goals of the season. Norm Dussault and Cal MacKinnon also scored. The Canadiens' Sunday triumph, both firing goals.

Veteran Leafs' Dunc Watt, who scored Saturday when he registered the fourth goal of the season in the Leafs' 4-0 win over the Rangers Saturday night. His old record was made in 1937-38 when he had eight.

Watt's big gun was McLean, who counted four times to lead the visit to the point in getting defeated by Art Park with four goals. Art Park was named the game's star.

Hard fighting Rangers opened up in the last period and scored five goals, but Letbridge had notched another pair to give them the game at 6-4.

Other Leaf scores were Milroy who scored a hat trick, and who counted the other two goals. Mac Colville notched a pair for the Rangers, while singles were scored by Kay Strain, Walter Durbach, Jim Richardson and Mac MacLean.

Hard fighting Rangers opened up in the last period and scored five goals, but Letbridge had notched another pair to give them the game at 6-4.

Other Leaf scores were Milroy who scored a hat trick, and who counted the other two goals. Mac Colville notched a pair for the Rangers, while singles were scored by Kay Strain, Walter Durbach, Jim Richardson and Mac MacLean.

Letbridge's big gun was McLean, who counted four times to lead the visit to the point in getting defeated by Art Park with four goals. Art Park was named the game's star.

## 2 U.S. Camps Are Split On Jap Treaty

By JOHN M. HIGHTOWER  
WASHINGTON, March 13.—(AP)

President Truman may have to decide soon whether the United States should press plans for a Japanese peace treaty.

His advisers appear to be split on the issue with some holding that the American interests would best be served by delaying a treaty indefinitely. Others insist that a Japanese peace settlement is essential to the Far Eastern policy of the United States.

Moves by Britain and Russia, meanwhile, have built up pressure on the administration for an early decision.

Russia is making propaganda capital out of the fact that her recent treaty of alliance with the Chinese Communists called for a peace pact with Japan at the earliest possible moment.

### FEAR NET MOVE

Some officials here frankly fear that the next Soviet move may be a formal proposal for a conference on terms which would appear acceptable to the western powers. Britain is anxious to see a treaty signed.

L. B. Pearson, Canada's external affairs minister, said in Ottawa, Feb. 22, that Canada favors early conclusion of a peace treaty with Japan. He urged that Russia and China participate in the drafting of such a treaty.

## Detroit Vice Makes Windsor Wide Open City

DETROIT, March 12.—(CP)—The Detroit Free Press says today in the first of a series of articles on vice and gambling in nearby Windsor that the Canadian city "is wide open."

The paper says the three-article series is the result of an investigation made by one of its staff writers. The first appears on page one under the line "Vice Is Rampant in Windsor Again."

"American money is being poured into Windsor from Detroit in a never-ending stream," the paper says. "Gambling and vice are rampant. There are race books, numbers and other gambling games, after-hours drinking spots and prostitution."

The paper says also that this condition apparently has obtained since a Free Press exposé of gambling conditions in Detroit last fall.

## CIVILIANS TO BE TARGET

# Army Is Safest Place If Shooting War Starts

By ROBERT MUSEL

Exclusive to The Bulletin  
LONDON, March 12.—(BUP)—If there is another war, you might be safer at the fighting front than at home.

A survey of secret and semi-secret weapons ready for use or in the laboratory stage shows that the art of killing civilians is far outpacing that of killing soldiers.

Soldiers would have plenty of trouble in a new holocaust. They always do, and more or less expect it.

But next time, if any civilians are expected to take the heaviest beating and the heaviest casualties.

The hydrogen bomb would be a terror weapon far too vast to use

MARKET JAM at edge of Minneapolis loop at weekend is typical of traffic conditions as roaring March storm covered Minnesota, Dakotas and Nebraska with sleet and snow. Scores of communities were isolated as gales ripped down ice-laden communication and power lines.

DOWNTOWN OMAHA had this bleak appearance as snow-laden winds up to 82 miles-an-hour screamed down streets. Pedestrians who ventured out clung to parking meters and lamp posts, like woman at left, or took their chances walking or running, hoping they would end up at places they were heading for. Nine were injured.

## Goldeyes Change Habitat, Now an Alberta Product

MEDICINE HAT, March 13.—(CP)—Lake Winnipeg may be fished out of its famous Goldeyes but they have not all gone into the frying pan, fishermen here say.

The well-publicized fish have simply migrated to Medicine Hat, using the Saskatchewan River water-course for the devious 600-mile trip.

For years Goldeyes have been common to this region—although Winnipeg has always claimed to be the cradle of the prairie delicacy. Local fishermen here kept mum, preferring to have the game rather than the name of an angler's paradise.

As a result Goldeye population of the big South Saskatchewan passing through Medicine Hat declined in inverse ratio to the decline reported by Lake Winnipeg fishermen. This week some noses were counted.

It has long been a moot point where Goldeyes hibernate.

### HUNDREDS THERE

Director of the Fish and Game Association, headed by Jack Clark and Harold Rasmussen, have just completed a survey through the ice. Test-boats were made at lengthy intervals over a five-mile stretch of the river. Their census shows literally hundreds of Lake Winnipeg Goldeyes spending the winter in the deep pools of the river in this district.

"The Goldeyes, which undoubtedly came from Manitoba in the first place, certainly do not return there for the winter or for spawning," declared Mr. Rasmussen.

"I have been fishing Goldeyes in the river here for years and I know their habits. There are new generations of young Goldeyes now—much bigger and fatter than the parent stock—and they were all spawned in rivers and streams, not lake waters."

### PLAN PROGRAM

"And the Goldeyes we checked this week are definitely Winnipeg Goldeyes not Tullibee," added Mr. Clark. The Fish and Game directors will table their findings before the next executive meeting of the Association with the recommendation that the Alberta Fish and Game Association undertake a propagation program in the province for Goldeyes.

## 100 Youths In B.C. 'War'

VANCOUVER, March 13.—(CP)—Civil war was declared Saturday on a "juvenile minority" response to an outbreak of vicious gang warfare here.

Knives were flashed and several teenagers "gave the boot" last night in separate eruptions of violence. Police said about 100 juveniles were involved. One boy was seriously bruised and cut; a 20-year-old youth was charged with assault; two teen-agers were "roughed up" and a truck driver and his assistant threatened.

Mayor Charles Thompson said "exceptionally stern measures will be used should there be a recurrence of the juvenile gang warfare. Our first job will be to bring the leaders under control. This will definitely be done."

### Former Editor Dies At Toronto

TORONTO, March 12.—(CP)—Laughlin Elliott, 47, member of the Ontario board of censors and a former newspaperman died today after a long illness.

Before joining the censor board in 1938 he had served in the travel and publicity department of the premier's office and was, at one time, a reporter and editor on the London, Ont., Advertiser.

### GLASSES ARE COSTLY

Merville D. Balfour was fined \$5 and costs in police court Saturday when he admitted placing two beer glasses in his lunch kit while he was in a downtown beer parlor.

"Not a very serious offence," remarked assistant crown prosecutor Guy Beaudry. "But the bottle felt they have to prosecute if they are going to keep their glasses from disappearing."

## Magyar Skater Given Sanctuary As Exile In U.K.

LONDON, March 13.—(AP)—Europe's No. 1 figure skater, Kirov, has chosen freedom in Britain rather than return to Communist-dominated Hungary as his homeland.

Penalties and without passport or identity papers, the slight, 26-year-old engineering lecturer said Saturday he thought his life would be in constant danger if he went home.

Kirov said he had been ordered to join the Communist party "or suffer the consequences."

Kirov came to Britain for the world figure-skating championships in which he finished second to Dick Button of Englewood, N.J., for the second straight year.

The Hungarian said he has been granted permission to remain here as a political exile.

## Widow Slain By Ice Pick

WINNIPEG, March 13.—(CP)—The body of a 30-year-old mother of six was found Sunday at the Ading hotel room, lying face down in a puddle of blood.

There were 18 slush wounds in the body. Police said Mrs. Martha Perreault had apparently been murdered with an ice-pick found in the room. It was blood-stained and had human hair on the 15-inch blade.

The first police tip came when constables found 20-year-old Walter Boney, in whose name the room was registered, lying injured alongside C.P.K. tracks. He suffered head and internal injuries, a broken arm and fractured ribs.

A routine check of his room uncovered the body.

The man was taken to hospital. Police said no charges had been laid. They considered that he had been struck by a train.

Police said evidence indicated the pair had known each other about three months. The woman's husband was found hanged in their home last year.

Of Mrs. Perreault's children, four are under six years of age. Both she and Boney were unemployed.

Lord Durham's report on "Canadian affairs, which in 1859 recommended responsible self-government for the colonies, was written after a stay of only five months in Canada.

## Public to Know Of Atom Warfare

U.S. Civil Defence Dept. Ready in Case of War

By James C. Austin  
Special to the Bulletin

WASHINGTON, March 13.—(UP)—The people soon will know what is being planned for their protection in the event of atomic war, Civilian Mobilization Director Paul J. Larsen said today.

On the job less than two weeks, the big, Danish-born engineer, who is charged with perfecting civil defense plans among the federal government, the states and the cities on this vital problem.

"The plans we are working on are very extensive and comprehensive," he said in an interview. "A great many plans are being formulated; a great many more will be."

### PUBLIC INFORMED

Larsen, an affable man whose 6-foot, 35-lb. frame carries about 225 pounds, was asked whether the public will be told about civilian defense plans after they have been formulated.

"This is going to be a public education program in which we hope the press will play a part," he said. "It will be a mass education program so that people all over will know what to do and how to do it in an attack."

The former director of the A-bomb engineering laboratory at Hanford, N.M., will supervise planning for such things as civil defense, health, housing and community services, strategic defense, industrial and government facilities, and censorship. He took over the new post on March 1.

### NO LONGER LOCAL

Larsen said plans developed by his office will be adapted to regional divisions of the country. Defense, he emphasized, no longer can be planned on a local basis.

The civilian mobilization office is one of eight planning groups within the national security resources board, of which the president's assistant John R. Steinhilber is acting chairman. Larsen's considered the most important.

Born in Copenhagen 47 years ago, Larsen came to the United States with his parents in 1902. He became a naturalized citizen in 1928. He studied engineering at the college of the city of New York and Columbia University, and spent 11 years with the Radio Corporation of America.

Between 1940 and 1945, Larsen was with the territorial government department of the Canadian Institute of Washington, and with the Johns Hopkins University's applied physics laboratory at Silver Spring, Md. During the war he was director of the armed services' radio.

## Printers Get Wage Rise In Vancouver

VANCOUVER, March 13.—(CP)—A wage dispute between two Vancouver newspapers, the Vancouver Sun and the News Herald, and Local 228 of the International Typographical Union (ITU) has been settled.

The agreement, reached Saturday, provides for a 13-cent-an-hour wage boost for 175 composing room employees of the two newspapers.

It provides also for 19 days' annual holidays for employees with one year's service, 15 days for employees with 15 years' service, and pay for five statutory holidays each year.

The ITU members—130 at the Vancouver Sun and 45 at the News Herald—were to have taken a strike vote Saturday. It was cancelled when the publishers submitted the new settlement offer and it subsequently was accepted by the men.

### PRESENT RATES

The day rate was \$1.67 an hour while the night rate was \$1.77. The union originally sought a 16-cent hourly increase for day workers and 24 cents for night as well as five extra holidays annually with pay. Increases granted are retroactive to Oct. 1, 1949. The two newspapers were acting also for the Vancouver Daily Province. It had agreed to accept wage and working condition agreements the two reached with the union.

### Lawyer 62 Years

VICTORIA, March 13.—(CP)—James S. Yates, 62, who had a record of 62 years unbroken legal practice, died Saturday.

Known to the legal profession as "father of the British Columbia bar," Mr. Yates was born here. A main street is named in honor of the Yates family.

proximity was project, including all phases of research and production of the armed services' radio.

AT THE BAY! SPECIALLY PURCHASED, IMPORTED SILVERED ANTIMONY WARE LOW PRICED!

**Cigarette Lighter Sets**  
3 pces. **4.98**

A Special import purchase! Dress up your home with one of these lighter sets, made in Occupied Japan. Sets consist of 3 pieces—lighter, cigarette urn and tray. Tuesday Special

**Cigarette Boxes**  
An excellent chance to get a practical gift for him or the home at an exceptional saving. Boxes size 4 1/2 x 3 1/2 x 1 1/2 inches wood lined. **1.88**

**Velvet Lined Boxes**  
An ideal gift for her to keep her jewelry easy to get at and also a small ornament. Shape of grand piano or heart shape. **2.49**

This ideal gift for the home has many uses. Grapes set shape 7 x 7 inches. Buy them singly or in pairs for party giving. **1.88**

**Small Jewel Boxes**  
Dress up her vanity with one of these attractive jewel boxes and help her keep her rings, eads, shell shaped boxes, silk lined. **98c**  
Jewelry, The Bay Street Floor

## Hail! Hail! The Gang's All Here!

FOR YOUR PET BETTER DAY

**DR. BALLARD'S DOG & CAT FOODS**

Unless your pet is most exceptional, he doesn't sing—but he DOES respond to good care and intelligent feeding with the devoted companionship and high-spirits that only a perfectly healthy animal can show. Keep your pet in top-notch condition by feeding him a health-giving variety of Dr. Ballard's foods... ensuring a scientifically balanced diet, blended according to veterinarian-developed pet food formulas.

Feed! Feed! Feed!!!

Solid brass dog tag... engraved with your dog's name and address for ANY THREE DR. BALLARD'S labels.

Hiding instructions on the package.

### The Bay's Selection of St. Patrick's Day Needs

Dress up your table with party pleasing colors for St. Patrick's Day.

- St. Patrick's Day cards **5c to 35c**
  - Paper Serviettes, Packages of 20 **15c**
  - Paper Table Covers, 72 by 54 inches for **25c**
  - Cardboard Shamrocks, each **10c**
  - Seals, package **10c**
- Stationery, The Bay Street Floor

### Penthouse Casuals! By "Hatch"

Just arrived, smart casuals in calf and suede leathers. Two smart styles to choose from in black, red, green, navy, cinnamon and Palomino. Sizes 4 to 10. Widths AA to B.

- A. Offside strap in red, navy and green calf. **8.50**
  - B. Two-tone sandal in navy and grey or cinnamon and Palomino. **8.95**
- Women's Shoes, The Bay Second Floor

Informal Modelling, Spring, 1950, Fashions, Tuesday 12:30 a.m. and 3:30 p.m.  
The Bay, Fur Salon Second Floor

**Hudson's Bay Company**  
INCORPORATED 27th MAY 1870

## General Work Starts Soon On Hotel Job

General contract for the 30-room Macdonald hotel extension will likely be awarded shortly, Robert Somerville, general manager of CNR hotels said here yesterday.

Mr. Somerville has been in Edmonton conferring with company architects on plans for the hotel extension. Poole Construction Co. of Edmonton have the contract for excavation.

He said the new kitchen and ballroom would likely be the first part of the extension built. This will be a two-story construction situated directly to the east of the present building, where excavation for a new loading ramp is now proceeding.

Mr. Somerville left for Vancouver by TCA plane yesterday on routine business.

## Cities May Leave Union

Secession from Union of Alberta Municipalities comes up for discussion tonight at city council.

Calgary city council will be asked tonight to consider the possibility of leaving the union of Alberta municipalities.

"Under the present setup, problems of the cities have not been receiving the recognition to which they were entitled, their representatives in the union being greatly outnumbered by representatives of towns, villages and municipal districts whose knowledge of problems peculiar to cities is not sufficient to deal adequately with them," said Mr. Miller.

Renewal of Calgary membership in the union is being withheld pending receipt of opinions from the other cities.

## Something Fell In Pieces Near City's Limits

Theory that "flying saucers" fell near Edmonton's northwest limit was advanced by a witness R. E. Thompson, 1213-95A street.

"I saw a ball-shaped mass streak across the skies from east to west about 8 p.m. Thursday night," related Mr. Thompson. "It looked like a falling star but bigger and was going deep level about the speed of a jet. I'd say it was about 5,000 or 4,000 feet up."

"I live about a mile from the northwest city limits and it seemed to me that as it was going east, it split up into three or four pieces. It seemed to me they landed near the city limits of northwest Edmonton."

## Chapel Service Honors Pupils At St. Josephs

Sixty University of Alberta Roman Catholic students were honored Sunday by St. Joseph's chapel in a special pre-graduation service.

The students, comprising over half the university's graduating Roman Catholics, assembled in the chapel's east wing and presented in full academic dress to St. Joseph's Chapel.

Rev. B. W. Malone, CSSR, delivered the sermon. Tea was served in the college dining room. Conveener was Miss Lorraine Jahnke. Poursers were Miss Mae Simpson, warden of Pembina Hall and adviser to the university's women students, and Mrs. D. W. O'Brien, representing the Catholic Women's League.

Among university representatives attending were Provost H. T. Sparrow, Dean Andrew Stewart of the school of commerce, Hugh Macdonald, head of the school of household economics.

## Cancer Group Names Officers In Lethbridge

LETHBRIDGE, March 13.—(CP)—A. W. Shookford of Lethbridge was re-elected president of the provincial council of Canadian Cancer Society.

Other officers elected Saturday at the annual general meeting of the council are vice-presidents G. K. A. Rice of Edmonton and Fred Shaw of Calgary; honorary secretary, Mrs. E. K. Morton of Vancouver; honorary treasurer, Fred Henry of Calgary; honorary auditor, E. G. Wallbridge of Edmonton; and honorary solicitor, Ronald MacNeil, K.C. of Edmonton.

The medical advisory board elected on Saturday morning includes the following: Dr. W. E. Ingram, chairman, cancer control, Alberta division; Dr. M. K. Bow, deputy minister of health for Alberta; Dr. Victor Wright, director of cancer research; Dr. A. L. Leslie, Alberta Public Health Association; and Dr. J. L. Edwards of Red Deer.

PERCY PLOWMAN

## Window Washing Is Big Job During the Summer

Percy Plowman is a little man but he has one of the biggest jobs in Edmonton.

As director of services for the provincial government in Edmonton, he has charge of the 100 men who do the unobtrusive but vital maintenance job which keeps the city's 15 government buildings running.

His chief concern is the legislative building itself. It is a very big building—no larger than the first of its kind in the city—and thanks to the efforts of Percy's 30-member staff, it's a very clean one.

"Twenty-five of the legislative building's staff wash 8 nights from top to bottom, dividing the 375 rooms into groups of 15 each. Once every three days they also wash them. The impressive marble work which adorns the inside of the building is completely cleaned once a year as is the dome of the building.

During the summer, two men scratch window panes. It takes them 10 days and when they're finished polishing the 720 windows inside and out, it's time to start all over again.

## WHEAT BUYING TREBLED

Canadians Are Praised For Aid to Build Israel

Canadians are being praised for their aid to build Israel.

General Abraham Harman, head of the Canadian Jewish Congress, said that the Canadian Jewish community has been instrumental in raising funds for the Jewish Agency for Israel.

He said that the Canadian Jewish community has been instrumental in raising funds for the Jewish Agency for Israel.

## ATA Executive Meets March 18

A special executive meeting of the ATA (Association of Teachers of Alberta) was held at the University of Alberta on March 18.

The meeting was held at the University of Alberta on March 18.

The meeting was held at the University of Alberta on March 18.

## Woman Detained For Mental Test

A middle-aged housewife, accused by police of being responsible for a number of false fire alarms in the past "six or eight months" from the vicinity of 92 street and 60 avenue, was remanded Saturday for mental examination.

She was arrested late Friday beside an alarm box "with the alarm still ringing." Constable F. E. McDonald said the woman had maintained a watch for weeks.

They said the woman had been observed "scuttling away" from alarm boxes on numerous occasions.

## Approval Is Sought For Works

## Council Also Considers Additional Paving Cost

Approval of \$571,022 in paving and sidewalk construction will be sought from city council tonight by commissioners.

## Recommend Sale Of Lots

Sale to Western Grocers Ltd. of two city lots between 119 and 120 streets, 114 and 115 avenues, for \$15,000 will be recommended to city council tonight by commissioners.

On one lot the company would undertake to complete a 180,000 structure by April 1, 1951, it was reported.

If it does not build on the second lot within three years the city would refund the company the purchase price with three per cent interest, less taxes or other penalties owing.

The sale would be subject to existing easement for truckage.

## Walk Change Not Suitable

Requested lowering of 103 street board sidewalk from 90 avenue north to where the sidewalk returns to its original level should not be until the street is paved in the next year or two, city commissioners said.

A petition signed by 40 property owners and 40 tenants in the area, pointed out difficulties in negotiating the present steps at the bottom of the sidewalk and asked lowering of the sidewalk.

City Engineer J. D. A. Macdonald has investigated the petition and will report that proposed paving of the street will "level" the present road grade three or four feet. If the sidewalk were lowered to present street level, another change would be necessary when paving is carried out.

## Welders Facing Bright Future

Confidence in the future of welding in Canada was expressed by R. M. Gooderham, general manager of Canadian Welding Bureau, Toronto. He addressed a meeting of Alberta Association of Certified Welders held in Social Credit Hall Saturday night.

Speaking to approximately 100 welders from various centres throughout Northern Alberta, Mr. Gooderham said that to consider the future of welding and its development, one must consider the opportunities which are likely to exist.

"Canada's industrial development has advanced a great way to go. Without new applications of welding the growth of Canada alone would greatly increase its use," he said.

## Israeli Envoy Dies

LONDON, March 13.—(Reuters)—The Israeli minister to London, Dr. Mordechai Eliash, 37, was found dead Saturday night. Death was believed due to thrombosis.

From Canada into Israel has been small—a few hundred in the last 25 years—the quality has been high. The majority of them among the Canadian Jews were some of the founders of Israel. Our part played in bringing the new state into existence.

"They helped greatly in pioneering the early Jewish settlements in Israel and in giving needed financial support," he said.

Although actual emigration from Canada to Israel has been small—a few hundred in the last 25 years—the quality has been high. The majority of them among the Canadian Jews were some of the founders of Israel. Our part played in bringing the new state into existence.

## 15,000 MIGRANT A MONTH

Israel has had to revise its wheat needs upwards, three times since becoming a member of the International Wheat Board. The country's first allocation was 100,000 tons a year "but in a short time, we had to ask for 120,000 tons," said Mr. Harman, "and then we had to ask for 150,000 tons." He said that the country's wheat needs have gone up tremendously, said Mr. Harman, "and the price in Israel is a reflection of the needs of the 370,000 immigrants who have entered the country since the May 1948, independence proclamation. They raised the Jewish population by 50 per cent—from 650,000—in this short time."

Mr. Harman said his country expects the immigration will continue for some time. At present, it stands at 15,000 a month, "but the governments of Poland and Iraq have given permission for their Jews to go to Israel provided they do so this year."

## Office Space For Rent

## YOUNG JUDGE IN MAKING

YOUNG PORKEE protests being taken from mother even if only for a few minutes while 16-year-old Marcelle Curial of St. Albert shows her father, Marcel Curial, what she thinks is good in young Yorkshire purebred at University stock farm Saturday.

## Tour of Varsity's Farm Draws Country Students on the TOWN...

By Jack DeLong

Nearly 3,000 visitors Saturday attended a day-long series of conducted tours through scientific and agricultural exhibits throughout the various university buildings.

These youngsters probed like an army platoon from barn to barn as well as to the scientific displays in the university's Agricultural Club.

Emphasis of the event was placed on the younger set, some 600 of whom came in by bus, train and car.

Typical of the rural interest shown by students was the busload of 36 students of Fairview school, some 10 miles north of Wainwright, headed by Principal William Wolodko.

First general visitors' day in several years, it was sponsored by the university's Agricultural Club.

Things I found out over the week-end: Jimmy Doolittle doesn't look anything like Spencer Tracy... Jimmy Doolittle doesn't eat anything like Spencer Tracy... he has never seen a flying saucer and neither have I... Does that make me just as smart as Jimmy Doolittle?

It takes warmer weather to bring Edmonton's good-looking girls out on the streets on a Sunday afternoon... It takes colder weather than we had Sunday to discourage little boys from going out on the streets... People are still asking me where Elegant Elsie lives... I still won't tell people where Elegant Elsie lives.

When are the Russians going to say they saw the flying saucers first?

## Jack Looks Ahead

Bull-necked Jack Taylor, who was the heavyweight champion of Canada, back when wrestling was really rough, (Zbyzsko broke Jack's leg), is still living quietly but vigorously in Edmonton.

Jack has a little home in the north end of the city and does odd jobs to keep going. He won't tell you how old he is but will give a helpful hint.

"I can qualify for the old age pension."

Taylor finds life as interesting as ever and feels as if he could live to be 1,000. Jack came up with this neat bit of whimsy the other day.

"I know enough now not to do the silly things I once did but not because I don't feel like doing them."

## Something you wouldn't expect to happen:

Barf-Cochrane's Arthur Wray, who gives the Alberta Government nothing but the old needle in the legislature, was able to thumb a ride up home the other day with Agriculture Minister Ben. David Ure.

Harry Allan, district superintendent for the Veterans' Land Act in Edmonton, really covers a lot of land these days. Harry is now looking after B.C. land affairs for veterans on a temporary basis and hops out to Vancouver by TCA every now and then.

Have you seen the new Irish sweepstakes tickets? I'm told that each genuine Irish sweepstakes ticket now bears a picture of a sweet Irish colleen.

## Death Exaggerated

Sometimes CFRN's Gordon Williamson doesn't know whether he belongs with the quick or the dead. That's when he looks at a picture of letter addressed to Gordie when he was overseas with the RCAF.

Williamson was badly hurt in a highway accident in Blighly on May 15, 1944. After a stretch in hospital he was shipped back to Canada.

When he reported to the CO at Rockcliffe station in Ottawa he was handed a big bundle of letters by a somewhat mystified CO.

Gordie felt dizzy too when he looked over the letters. Stamped on each were the words: "Died of injuries on active service."

A good goodnight to all and especially to the little people of Mars who are smart enough not to land on this earth.

## TROUBLES AFTER MISHAP

William Hutchinson, passenger in pulling John Day, driver of the other vehicle, "out of his car" and ordering him to "stay put."

Hutchinson's lawyer said accident had perhaps been so serious in making sure everybody remained at the scene of the accident. It was at 36 avenue and 109 street.

Gordie felt dizzy too when he looked over the letters. Stamped on each were the words: "Died of injuries on active service."

A good goodnight to all and especially to the little people of Mars who are smart enough not to land on this earth.

## Desire to Maintain Law Takes Two Before Court

A motorist and his passenger, who were apparently over-anxious that no one should leave the scene of traffic accident in which they were involved Saturday morning, found themselves facing the magistrate a few hours later.

William Hutchinson, passenger, was fined \$10 and costs on an assault charge after he admitted pulling John Day, driver of the other vehicle, "out of his car" and ordering him to "stay put."

Hutchinson's lawyer said accident had perhaps been so serious in making sure everybody remained at the scene of the accident. It was at 36 avenue and 109 street.

Gordie felt dizzy too when he looked over the letters. Stamped on each were the words: "Died of injuries on active service."

A good goodnight to all and especially to the little people of Mars who are smart enough not to land on this earth.

# Paris Experts Say Pantaloons Are Next

By Bea Thrifty

"Peeping pantaloons instead of peeping petticoats are the latest craze in Paris."

Now that's a hot tip I picked up in passing the overseas textile machine. Fascinated by this strange and awesome news I pulled out the tape and read further...

"Famous French designers are favoring pantaloons in satin and taffeta for lounging; knee pants in linen and flannel for travel and town wear; calf-length pantaloons to wear beneath chiffon and silk afternoon dresses."

My comment is o-o-o-l-a... What's yours?

## Tobe on Fashion—

**Milan Straw in Shoes and Bags**

If you went south this winter you probably bought a pair of shoes in Milan straw and a bag to match in natural or red or some other gay color. These will stand you in good stead this summer, of course. But you realize that Milan straw and bags are a very important spring fashion, too!

Yes, in navy and black and a very smart new shade of beige—brown, Milan straw and bags have the right formal quality for pre-late summer. I think Milan straw shoes are the prettiest in the new very open strapping sandals, because the Milan straw makes such a fine little skirt. The bags are so well styled that they do not seem like straw bags at all.

**THIS STRETCHING exercise will help, too, if you are trying to overcome nervous tension and fatigue.**

## WHY GROW OLD

By Josephine Lowman

Physical exercise is splendid medicine for nervous tensions and fatigue which has been produced by nervous work.

It is even helpful when you find yourself stucked by a fit of worry!

After sitting at a desk all day long or after a day of tennis, you will feel physically tired and you will not want to exercise. However, if you make yourself go ahead, you will be amazed at the way your sensation of weariness will pass away.

It makes us feel fine to stretch our muscles, to whip up circulation and increase and decrease our breathing. You cannot worry too much when you are doing deep knee bends or bending your knees to your stomach. If a brisk walk is very helpful in banishing the blues.

Leave your worry at home, walk briskly, breathe deeply, observe humanity about you, and likely the peace of nature will settle upon you and soothe your troubled spirit.

When you return home you will find that things do not look nearly so badly.

There are a few simple exercises which are most relaxing. Try this one: Stand still. Let your head and trunk and arms drop forward (bending at the waist). Do this in a rag doll fashion. Now raise your trunk and move your arms upward, shoulder to shoulder, palms toward ceiling. As you raise your trunk breathe in deeply, filling the lungs with fresh air. Continue bending and raising the trunk.

Exhale as you flop forward. Be certain to have the windows open when you do this exercise. It will relieve you of tensions.

If you're youngest had a new leaflet No. 73, "Want a Business of Your Own?" It will give you valuable hints if you wish to start a business at home. Send a stamped, self-addressed envelope with your request for it to Josephine Lowman in care of this newspaper.

## YOUR BABY AND MINE

### Arrival of New Baby Not Grandma's Problem

By Myrtle Meyer Eldred

How much can parents do for their grownup children without making them increasingly dependent on their help? This is not an easy question, for parents should treat their adult children as they would any other adult and this means if they need help it is possible to give it, they should.

But this mother wonders if her children are not taking advantage of her willingness to help them. When my daughter married her baby I was willing to help her if she would come from the hospital to my home. She refused to do this and hired someone to care for her in her own home.

"When my youngest had a baby I cared for her without a word and now that this daughter is expecting again I find it most inconvenient to help her. What is your opinion of this situation? I know that parents are not supposed to meddle in their children's affairs but I have been my experience that even if our children are not economically independent upon us, they do need a lot of help. They don't seem to have the stamina we had as young parents."

They have it if you allow them to express their independence. You told your older daughter you could not help her—except at her own convenience to you, and she planned to do without you.

If you would make it plain to the daughter that it was no longer possible for her to accept this help, she would make other arrangements. If parents cannot do this, they are not truly independent, no matter what their age.

But your children are no different from other adults; the more they are helped by you, the more they will depend upon you. If you are to have the reverse is true. All grandmothers make their parents responsible for their children but I don't think it is considerate of grown-up children to make their parents responsible for the necessary work in a home.

Our leaflet No. 5 "The First Six Weeks" is a book that by sending a stamped, self-addressed envelope with your request to Myrtle Meyer Eldred in care of this newspaper.

# DOROTHY DIX SAYS

## Ideal Mother Neither Doormat Nor Martyr

A correspondent asks: "What is your ideal of a good mother?"

Well, my ideal of a good mother is not the popular one of tradition. She isn't the sweet saint who enlivens herself to her children and lets them run roughshod over her. She is a mother who offers herself up as a living sacrifice on the family altar.

No, my ideal mother is not a big life!

She is more of a hard-boiled one than she is a motherly one. She has a heart as big as an outboard, but she also has an enlargement of the funny bone.

She does not make herself a doormat for her children. She puts herself on a pedestal so that they have to look up to her.

And she is a woman of action. She doesn't trust to luck about her children; they will turn out as she wishes them to be.

She bats them into the straight and narrow path and keeps them walking it until they like it and don't feel at home anywhere else.

## IS REALISTIC

My ideal mother tries to see her children as they are. She doesn't think that all her germs are aways and that a mischievous child is an infant phenomenon.

If Mary is a ugly duckling, mother is not going to give her the education and taught the parlor tricks that take the curve off her nose and make her into a beauty.

If John is full at his books but has a head for business, she steers him into a career where ingenuity counts instead of the dead language.

She gives her children a sporting chance in life. She doesn't let the intelligence to recognize their defects and help them to correct them.

My ideal mother knows that every mother wishes her own price tag on her children. She doesn't let her absolutely at her own valuation. If she holds herself cheaply, she regards her worth.

If she makes herself a servant to them, they treat her as they would a servant.

If she is abashy, they are ashamed of her. If she permits them to talk back to her, they are insolent to her. If she gives them the best of everything, they take it without a thought.

My ideal mother knows that her children will feel her exactly as she treats them. So she teaches them to treat her, and so she exalts herself in their eyes.

She is a mother before them as an oracle and as long as they live they think that mother knows best.

She commands their respect and they are proud to show her off to their friends. Mother is the queen of the household because she has elected herself to that office and her children do her reverence.

## Flower Girl Dancing Act

LONDON.—(CP)—Five dancing mothers, every one a former pantomime principal girl or boy, have formed themselves into a flower girl dancing act.

Most of them are over 60 and one or two admit to being grandmothers.

They are delightful children and grown-up girls in a twinkling. Theirs is a show, "Christmas Party," produced by Cecil Landau at the Cambridge Theatre.

Maudie Vera, Brinkston-born, has two daughters and three grand-children. She started her stage career at five and later toured the world in pantomime and musical comedy.

"It's 20 years since I danced professionally," Maudie said, "but I can still show the youngsters a thing or two."

Millie Deane, who boasts of being "oldest of the girls," has been 90 years on the stage and still does the "gipsy" veteran variety-greens remember her as the female half of the comedy duo Fred Miller and Millie Deane.

David, the comic, vicious Mary Gilsby doesn't even look middle-aged, but has a grown-up son playing in the pantomime. She has been on the stage since she was five years old.

Mary Minto is 29 years of stage in "The First World War Comedy" "The Better 'Vie." She started her career as a chorus girl.

"There's nothing like show business for keeping you young," said Mary Cooper, the fifth member of the troupe. "I've been on the stage ever since I could walk."

## SO NERVOUS, RESTLESS SEVERAL DAYS BEFORE

**Your MONTHLY Period?**

Do female functional monthly ailments also feel as nervous, irritable, restless, as taking medicine a few days before your period? If so, you need Lydia E. Pinkham's Vegetable Compound. It has such a soothing, comforting effect on the nervous system, it is the most important remedy for women's monthly ailments. It also relieves nervousness, irritability, nervousness, of this

nature. Regular use of this great medicine will help you resist against such ailments. It is a natural, safe, and reliable remedy. It is sold by all druggists and health food stores.

**LYDIA E. PINKHAM'S Vegetable Compound**

EDMONTON BULLETIN, Monday, March 13, 1950 11

**NORTHBOUND SCOTT** and Guide leaders have an interesting inspection tour ahead of them. Beth Riddick, centre, and H. Northcott will visit companies as far north as Tuktoyaktuk, inside Arctic Circle, where Eskimo children learn principles of guiding and scouting. Their ten-day flight will take them to 22 northern centres.

## Reception to Follow Last Concert When Manhattan Trio Performs

Edmonton's music-lovers will fill McDougall United Church for the final concert of the year's Celebrity Series. The Manhattan Trio will be guest artists. They are expected to arrive in the city early tomorrow. Soprano Marie Rondahl, tenor Paul Knowles and Andrew Gaine will perform. Their accompanist will be Susan Durmashkin.

Following the concert a reception will be held in the church social room when executive members of the Women's Musical Club and their husbands will be special guests.

**NORTHERN** visitors, who are guests at the Macdonald hotel for a few days, are Miss R. B. MacDonald, Dawson City; Mrs. A. Van-Iscoort and Miss P. Larsen, Peace River.

Other guests at the hotel include Mrs. and Mrs. A. Abrams, Regina; Mr. and Mrs. B. Blank, Vancouver; Mr. and Mrs. J. I. Farnham, Winnipeg; and Miss V. D. Galloway, Windsor.

**HONORING** Miss Marion Phyllis Johnson, bride-elect of Saturday macelaneous shower was held by Mr. Bert Hildon recently.

Twelve guests received the wishes of Miss Johnson as she opened her gifts. Prize winners in the games were Miss Margaret Hill and Miss Edna Pepper. Following the games, tea was served by Mrs. Hildon and her mother, Mrs. Ryerson.

## Royal Alex Spring Bridge To Be Wednesday Affair

Hundreds of Edmonton women are expected to attend the annual spring bridge sponsored by the Royal Alex. Mrs. W. M. Darling is convening the event, which will be held in the nurses' residence March 15. Reservations may be made by phoning Mrs. Darling at 83360 or Mrs. C. H. Ross at 84702. Among those who have made reservations already are: Mrs. G. E. Kichen, Mrs. J. L. Gibault, Mrs. S. Hansen, Mrs. E. M. Hill, Mrs. C. R. Dobson, Mrs. W. J. Christian, Mrs. C. Lee, Mrs. A. S. Duce, Mrs. H. W. H. Douglas, Mrs. L. Reynolds, Mrs. J. Cooper, Mrs. R. Davis, Mrs. H. Wilson, Mrs. M. MacDonald, Mrs. W. H. Goplin, Mrs. G. H. Swallow, Mrs. A. B. Fife-Simon, Mrs. C. Monielth.

**HOME-BAKED GOODIES** were a feature attraction at Saturday bazaar sponsored by Edmonton Subdivision of Catholic Women's League. St. Patrick's Day decorations were used in the HBC Empire Room for the afternoon affair. Mrs. W. Wagner, left, Mrs. Peter Bello, Mrs. David Waisley were busy with arrangements.

## Friendship Club Marks Birthday

**Oldsters Dress as Small Fry For First Birthday Party of Club**

Grannies and great-granddaddies will turn the clock back to their baby days when they celebrate the Friendship Club's first birthday tomorrow.

Members will come dressed in rompers 'n bonnets, sleepers 'n even diapers for the "Kid's Party" to be held at the recreation hall at 7:30 p.m.

Hostesses for the party will be board members of the Friendship Club and the president of each sponsoring club. Harold Wright will be master of ceremonies. Hostesses will be dressed as nursemaids.

Prizes will be given for the most "authentic" costumes by the Canadian Legion Auxiliary, Kingsway Branch. A huge birthday cake will be donated by the Winokowski Society and ice cream for the party will be presented by the United Commercial Travellers.

Mrs. J. H. Robertson's orchestra will give musical background for the dancing and games. Paper hats will be given to members unable to come in costume.

Each member will have a small cake lit with one candle during a special "Happy Birthday" ceremony.

Other guests invited to the party include recreation staff members, handcraft instructors, variety show directors, city council representatives, Miss Jane Becker, Mr. and Mrs. Charles MacPhee, and Mrs. J. H. Robertson.

Members of the central club will attend this first anniversary party.

### Calendar

Municipal chapter, 1950, annual meeting tonight at 8 p.m. at the meeting room of the Macdonald hotel.

Central United Church WA, Group 2, meeting at the home of Mrs. R. K. Winter tomorrow at 7:30 p.m.

Bellevue Ladies' Group meeting at St. Mary's parish hall tomorrow at 8:15 p.m.

St. Paul's WA meeting, Wednesday, in parish hall, at 7:30 p.m.

St. John's Evangelist WA, and also group, meeting at the home of Mrs. Robert, 1214 University avenue tomorrow, at 8 p.m.

### 30th Anniversary Marked by Couple

Celebration of 30th anniversary is in store for Nursing Sister's Association, Edmonton Division.

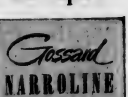

Plans have been made to hold the celebration in the Prince of Wales Armoury, April 12. Mrs. J. O. Baker and Miss Margaret Thompson are in charge of arrangements.

Mrs. Arnold Taylor gave a travelogue on her trip to Great Britain.

### Whist Drive

Canadian Daughters' League will hold a whist drive in the first Empire Room, March 24 at 2:35 p.m.

# U.S. Senate Chills Pact With Britain

## Atomic Secret Sharing Hit by Fuchs Confession

WASHINGTON, March 13.—(UP)—Study of the Fuchs confession convinced some legislators today that proposals to share atomic secrets with Britain are "dead on a doornail."

"I don't see how anyone could vote for such a proposal in the light of the security laxness revealed by that confession," one senator said.

The confession made by Dr. Klaus F. Fuchs before he was convicted of espionage in London became available to some legislators last Friday. It was given to members of the joint congressional Atomic Energy Committee in a closed session.

Fuchs, German-born and British naturalized scientist, was sent here during the war to work on American atomic bomb project. Committee members said they under an agreement with Britain he was not checked by U.S. intelligence authorities.

## Free World, Canada's Aim

KINGSTON, Ont., March 13.—(CP)—Canada does not seek the suppression of others—"our object is our own freedom," Defence Minister Cline, said, Saturday.

He presided at a ceremony commemorating the 10th anniversary of the Canadian War Veterans' Association.

"We seek to teach here not the shackles of war, but the responsibilities of citizens," he added.

The ceremonies marked a step in the completion of a modern barracks block and administrative wing to meet a planned increase in the number of students, who by 1952, are expected to total 400.

Mr. Cline dedicated the building to the service of Canada and to those who with her seek to serve the free world.

Newfoundland is thought to have been discovered by John Cabot in June 1497, and was formally claimed for England by Sir Humphrey Gilbert, in August, 1585.

## Too Many Engineers

CALGARY, March 13.—(CP)—

Concern is felt for the position of the large number of engineering graduates who will leave universities in May, J. J. Hanna, retiring chairman of Calgary branch of the Engineering Institute of Canada, reported here Saturday.

"The high level of activity in engineering work is creating many opportunities for members of the profession but concern is felt for the future."

**BIG TRAILER** loaded with lumber, snapped loose from speeding truck at Weaver-Weidley, Cal., and caused estimated \$50,000 damage to five downtown business houses Wednesday. There were no injuries. Truck required mile in which to stop. —AP Wirephoto.

## Inside Hollywood

By Bob Thomas

HOLLYWOOD.—(AP)—For sale: three or four toupees, used but in good condition.

The seller is Dean Jagger, who has carved a whole new career for himself by tossing away his hairpiece.

"It's wonderful not to wear the damned thing any more," he told me. "It was a lot of trouble to size on and my head got hot underneath it."

"There was always the worry about whether it was straight or not," he always said. "I was always asking my wife 'Does it look all right?'"

Jagger's emancipation from the toupee (or rug, as it is called in Hollywood) came through his role in "Twelve O'Clock High." He played the "retired" desk officer in the air force. One of the stipulations was that he had to do the part without his scalp dye.

**BALD GLAMOR**  
His performance brought a new kind of glamor to the bald head. He won himself an Academy nomination and is the leading contender to snag the Oscar.

"I have never been vain about curls when both attended the studio to pull Shirley Temple's curls when both attended the studio school at Fox. Later he was a classmate of Jane Powell and Elizabeth Taylor at MGM. Sound like fun?"

## Secrecy Start East Campaign

OTTAWA, March 13.—(CP)—

John J. Fitzgerald, president of the newly incorporated Social Credit Association of Ontario, said Saturday night that the wide gap between the Liberal party platform and its performance can be bridged only by application of Social Credit monetary doctrines.

Public opinion in Canada was in favor of increased old age pensions and removal of the means test, the dropping of the limit of \$10,000 on the meeting called to hold an Ontario Social Credit convention at Sudbury May 3 and 4.

Japanese warriors of the 16th and 17th centuries used gigantic bows that were more than eight feet in height.

## Actors Count Words To Avoid 'Bit' Roles

By Virginia MacPherson

HOLLYWOOD, March 13.—(BU)—Movies could be a lot better, Director James Kern said today, if Hollywood's caste system would up bit players from the "untouchable" class.

"Plenty of good roles go to mediocre actors," he grumbled. "Just because the parts aren't big enough, it's a heck of a situation, because lots of bit parts are vital to a plot."

But the way Glitterland goes about these things, an \$1000-a-week actor would even think of taking a role with only a few lines.

"They may know how well [it] be the one high spot in the movie," Kern said. "They might even want to be in it. But they can't take it. But they dare take it!"

"They do not. And you know why? Because it would lower their standing in Hollywood, that's why. In this goofy set-up, a lousy role with a hundred lines does you more good than a beautifully played role with maybe only a few words to say."

**HARD TO CAST**  
"A good bit is harder to cast than the leading role. Any handsome young man and pretty girl can play most of the leads. But the wild-ones are what give atmosphere to your movie. Sometimes they can make or break a scene."

"In England," Kern said, "even big-name stars take bit parts. They can be a sensational asset in their last picture, but they turn right around and play a bit in their next—and still get the lead in one after that."

"In Hollywood, if you sign up for a tiny part people begin to think you're slipping. And after that, all you can get is tiny parts."

## Practice Bomb Blast Tears Off Boy's Hand

OTTAWA, March 13.—(CP)—Three children and their mother were injured Saturday when an army "thunder flash" bomb exploded in the home of Mr. and Mrs. Kenneth MacLaurin.

The explosion blew off the right hand of eight-year-old David MacLaurin.

The boys' brothers, Bill, 11, and Terry, two months, suffered facial injuries.

Their mother suffered a deep gash on her chin.

Police said the MacLaurin children apparently picked up two of the cartridge-like practice bombs on a street near their home last summer.

The cartridges were brought out yesterday. After one was broken open, Mrs. MacLaurin, 35, it and threw it out in the back yard where it exploded as he was about to throw it into the yard.

The second cartridge was broken in a similar manner. The mother's hand it while David held it. It exploded as he was about to throw it into the yard.

Newfoundland was the oldest English colony and a former Dominion.

GEN. JAMES H. DOOLITTLE  
... Looks Over Oil.

## Doolittle Is Passenger In Air Survey of Oil

General James H. Doolittle, who led the first air raid on Tokyo in the last war, would like to see a flying survey but at the moment is far more interested in Alberta oil.

The man who spent 30 hectic seconds over Tokyo on April 17, 1942, arrived in Edmonton yesterday for a look-see at the Alberta oil situation.

### OIL NOW HIS INTEREST

Now vice-president and a director of Shell Oil Co. Ltd., General Doolittle is making an aerial inspection of oil holdings in the Lesser Slave Lake and other north-western Alberta areas before returning tomorrow to his New York offices.

"I'm here to find out about oil in Alberta, so I have nothing to tell," the former pilot spokesman told him as he stepped from a TCA plane yesterday.

"The shell company is vitally interested in Alberta oil and I hope to get a good picture of the situation during my visit here," he added.

### NON-COMMITTAL ON WAR

Asked if he thought there would be another world war within the next five years, Gen. Doolittle replied:

"I sincerely hope we don't have a war."

The hero of the Tokyo raid says he has not yet signed a flying survey and laughily urged a reporter to "let me know just as soon as you see one."

Asked if he during 3-25 raid on Tokyo had given him his greatest thrill, he grinned and replied:

"The greatest thrill I ever experienced was the first time I became a grandfather."

General Doolittle said he "got an awful bang" out of seeing the morning picture "30 Seconds Over Tokyo."

He had seen it in London when he was commanding U.S. strategic air forces later in the war.

### NOT SO BAD, REALLY

"Specs Tracy sure made me look like a mean old scoundrel on that picture, I don't think I'm a bit like that," he grinned.

Gen. Doolittle explained that bad weather, plus the fact it had been necessary to take off from the aircraft carrier Hornet eight hours before it was planned to do so, resulted in all 16 of the B-29s crash-landing in China.

Doolittle himself had to parachute to safety in stormy weather and complete darkness. He escaped without injury but several other airmen were hurt.

Some were captured by the Japs. One crew made a safe landing in Russian-held territory.

"It was really the bad weather that caused us all to crack-up," Gen. Doolittle said.

### FLIES NOW AS PASSENGER

Shell Oil Co. Ltd. officials who met Gen. Doolittle at Edmonton airport were Earl Davis, drilling specialist from Houston, Texas, official of the Shell company, H. L. Koch, area geologist and Cecil Phillips, production manager for Alberta.

Mr. Koch said it is likely that the company will drill on their northland holdings in the near future. Gen. Doolittle stayed at the Adlon Hotel while in Edmonton and was to fly north in a chartered Associated Airways plane. He gave up flying as a pilot two years ago.

## Feud With Son Sees Dad Killed

MONTREAL, March 13—(CP)—Provincial police are holding the wife and son of Arthur Sutton, 46-year-old Covey Hill farmer, in connection with Sutton's fatal shooting following a family quarrel Saturday night.

Police said Sutton's 42-year-old wife and his 16-year-old son, Earl, eldest of three children, were being detained here as material witnesses for a coroner's inquest at Huntingdon, Que., this week.

## Stalin Believed Willing To Meet Truman In Europe

MOSCOW, March 12—(Reuters)—Foreign observers here today suggested that Prime Minister Stalin might be willing to meet President Truman for "peace talks" in Europe.

They attached significance to a recent statement by polithero mess George Malenkov expressing Soviet readiness to take part in a "bonnet world peace party."

They considered the statement suggested Stalin might be willing to meet Truman, and were of the opinion that such high level talks would not exclude British participation in the line suggested by Winston Churchill in his pre-election statement.

## Dad Braves Fire But Two Tots Die

FERTILE, Sask. March 12. (CP)—Two children died early Sunday in a fire that destroyed John Drev's general store and home. He was seriously burned in a battle attempt to save Nell and Betty, both under five.

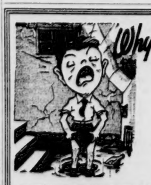

Mrs. Drev and a daughter were away at the time.

## Czechs Order Out U.S. Missionary

PRAGUE, March 12. (AP)—Wallace Toronto, last American Mormon missionary remaining in Czechoslovakia, was ordered today to leave the country by next Saturday. Toronto headed a group of American Mormon missionaries whose mission was ordered closed recently because the new state re-legalized law prohibiting foreigners from carrying on church work here.

## Map By Nelson Worth 83 Cents

TANKENTON, Kent, England, March 12.—(Reuters)—A map of the Battle of the Nile, drawn by Lord Nelson, has been bought for 83 cents in a Brighton pawn shop. Dr. C. E. Glazebrook, a distant relative of the admiral, has added it to his collection of many hundreds of Nelson treasures.

## Parley Gets Secret Data On New Arms

Exclusive to the Bulletin

OTTAWA, March 12.—(BUP)—Canada will disclose top military secrets with British and American officials at a three-day conference starting Wednesday.

Defence minister Brooke Claxton announced that the closely-guarded talks would cover major developments in chemistry, physics, medicine, psychology and operational research.

He said they would form the second scientific conference of this nation's super-secret Defence Research Board. Most of the conference would deal with application of science to military problems, the announcement said.

Claxton did not say specifically what would be discussed. It was believed the results of exercise Sweetwater, a combined U.S.-Canadian operation last month in the Yukon, would be assessed. Tentative plans may be discussed for other combined manoeuvres to test latest equipment and tactics.

Claxton said it was Defence Research Board policy to stage periodical scientific conferences so new information could be explained to other scientists "without violating security."

MUCH INTEREST

The formal statement announcing the conference said papers due for presentation "are followed with a great deal of interest by senior Canadian, British and American scientists who can discuss research problems in detail and exchange ideas."

Canada will be represented by Dr. O. M. Sander, chairman of the Defence Research Board, and Dr. C. J. Mackenzie, president of the National Research Council. Dr. Sander planned to send Sir Alwyn Crow, head of its joint services mission in Washington. The United States delegate will be Dr. R. P. Rheinart, executive secretary of the U.S. research and development board.

British forces which landed in Chesapeake Bay in August, 1944, captured Washington and burned the White House and several other government buildings.

## Sander Clears Medical Hurdle

CONCORD, N.H. March 12. (AP)—The New Hampshire Medical Society refused Sunday to let a disciplinary action against Dr. Herman N. Sander.

After detaching the Sander case for three hours, it said disciplinary action "is the province of the county medical society concerned."

The state society could have recommended disciplinary action to the county society. The state society refrained from any such suggestion.

It did, however, condemn mercy killing, or euthanasia, in strong terms.

## WORK BEGINS ON REFINERY

RED DEER, March 12.—Land is being levelled on the southwest corner of the city for construction of a proposed \$200,000 oil refinery.

Elsworth Wood, manager of Alberta Independent Refinery Syndicate, announced a 12-year lease had been signed with the CPR for the 20-acre site. Arrangements for securing equipment are being completed.

Red Deer firm of Currie Construction started drilling on the location Friday but for water, not oil.

## Blind Enabled to Read With Electronic Pencil

ANN ARBOR, Mich., March 12.—(UP)—University of Michigan psychologists today reported research on a portable electronic pencil which enables the blind to read by throwing a beam of light at letters and translating them into sound.

The pencil, about as long as a woman's purse, was invented three years ago by Vladimir K. Zworykin, who also invented the television tube. Only 10 of the pencils have been made; seven are in this country.

Scientists said the instrument will enable the blind to enjoy literature and other printed material not translated into Braille. The pencil picks up vertical lines of print and translates them into code-like sounds. He must learn to identify each letter, which has its own pitch pattern, somewhat like a code signal.

The pencil's principal disadvantage is that it operates at only 30 words a minute, whereas most Braille readers average between 80 and 70 words a psychologist said.

## Trucker Died Accidentally

MEHLIDE, B.C., March 12.—Investigation into the death of Rufus McKelvie, 46, truck driver, of the department of highways, who was recently discovered dead in the cab of his truck which was found on a roadside.

Coroner was G. T. Holdaway and the jury returned a verdict of accidental death. Investigation was made by constables T. Maxwell and G. Seaton of the provincial police. Engine of the truck was running when the man was found.

During the year 1948 signs supplied by the A.M.A. were erected in the district.

Other well intentioned donations to the public library and baseball team, repair and replacement of playground equipment.

During the year short courses were sponsored as well as a tiller match and a calf show.

## New Cabinet By Nationalists

TAIPEI, Formosa, March 12.—(AP)—A new cabinet representing all Chinese Nationalist elements, with the notable exception of Vice-President Li Tsung-jen, was formed Sunday to face the uncertain future.

The new Nationalist cabinet consists of 14 ministers under Premier Chen Cheng. At least half have been educated abroad.

Surviving are his wife, three children, his parents, Mr. and Mrs. J. McKelvie of Chilliwack, B.C., and two sisters, Mrs. Louis Hov and Mrs. Don Hov of Mehlide.

## Earth Tremors

WELLINGTON, N.Z., March 12.—(AP)—Earth tremors jarred today in the north and south islands.

"Mrs. Madson ate a piece of steak about as big as a quarter," her attorney, Ellis Gower, said, "but she is still very weak."

## FAT STEERS FATTEN FUND

HANNA, March 13.—Robert White, chairman of the Hanna Stealing Area Association, has been offered a fat steer by each of two farmers as their donation to the rink.

## Death Follows Siamese Birth

PORT OF SPAIN, Trinidad, March 13.—(CP)—Six days after giving birth to Trinidad's first recorded pair of Siamese twins, Mrs. Rita Lovell, 24, died in hospital yesterday.

The twins, joined face to face from the chest to the lower abdomen, were delivered March 6 by a Caesarian operation.

Both children are reported doing well.

## Thieves Break Communications

FRANKFURT, Germany, March 12.—(AP)—Service was restored after 18 hours Saturday night on a applied telephone-telephone line linking Germany, France, Italy and Switzerland.

Frankfurt police said thieves entered a tunnel through a bombed house stole a 16-foot section of the cable and sold it to a second-hand dealer for 30 marks (about \$8.50). The cable was recovered.

## Acquitted Denied Shooting Widow

FRANKFURT, Germany, March 12.—(BUP)—The U.S. District Court, trying Mrs. Yvette Madson on charges of killing her first husband, denied today a defense motion for a directed verdict of acquittal. Lt. Andrew Madson, was shot Oct. 20.

Mrs. Madson, 20-year-old attractive amateur artist from Brooklyn, was led into court today in a low-cut green dress after a five-day hunger strike.

"Mrs. Madson ate a piece of steak about as big as a quarter," her attorney, Ellis Gower, said, "but she is still very weak."

## Why be Intimidated?

## U.S. Uranium Reserves Hinted On Increase

WASHINGTON, March 13—(AP)—The United States supply of uranium for atomic bombs may be bigger than most people think.

Whisperers and even announcements of new discoveries in recent months hint that enough of the power-packed element probably has been located in the U.S. to strengthen this country's hand considerably in international dealings. The U.S. still may have as much as 100,000 tons of uranium ore, heavily on Canadian and Belgian uranium mines for some time. They provide incentive.

The atomic energy commission says "a large number" of uranium finds were reported in the last year and a few may be worth working. As a matter of fact, there already is some production in Colorado. But the biggest boost for hopes of stepping up the uranium output at home was an announcement a few weeks ago from mining men at Sandstone, Wyoming. They said what is believed to be the largest deposit of uranium ore and rare earth oxides anywhere in the world has been found near there in the Bear Lodge mountains. Geologists and engineers say the deposits are 30 to 100 feet wide, 100 to 1,000 feet long and can be worked out by the relatively cheap method of leaching ore out of an open pit. There was no indication when operations could begin.

## UN's Trygve Lie Faces Widespread Criticism

By Norman Altshuler

LAKE SUCCESS, N.Y., March 13—(CP)—The United Nations chief executive faces the most widespread western criticism in his UN career for openly backing Chinese Communist demands to represent China in the UN.

Secretary-General Trygve Lie has stood up to American editorial and congressional blame. He insists he is working to save the UN in the interest of the organization as a whole instead of that of individual members. No official reaction has been forthcoming from delegates to Lie's arguments for a way to end the

ship in the UN, the one which controls the bulk of the population should be voted into the UN. Carried to its logical conclusion, this would see Nationalist China ousted from the UN and supplanted by Mao Tse-tung's Communist representatives. Lie says this would be common sense and not a surrender to the Russians. Soviet Russia is boycotting 15 UN bodies, protesting presence of Nationalist China in the UN. The Russians say they will not return until Nationalist China is expelled. The Russian-bloc countries have not been spared by Lie in his arguments that both east and west are waiting efforts in trying to blame each other for the world's ills. He says the Soviet-bloc boycotts are harmful to the UN.
